- 5 Junctions & Inspection Pieces
- 8 Couplings
- 9 Reducers & Level Invert Tapers
- 9 DWV Connectors & Adaptors
- 10 Gullies, Risers & Traps
- 11 Miscellaneous Fittings
- 13 Traps & Connectors
- 14 Grates
- 15 Pipe Brackets
- 15 Keyseals

Key Plastics PVC pipes and fittings for drain, waste and vent applications were developed in close consultation with the Australian plumbing industry.

Many of the specialist fittings in the Key Plastics range were designed and developed to solve particular problems, and to save plumbers time and money.

Manufacturing quality and service reliability are essential requirements for all DWV products. Key Plastics PVC pipes and fittings are manufactured under strict quality control in accordance with ISO 9001:2000.

This commitment to quality is also reflected in the fact that Key Plastics was the first Australian PVC pipes and fittings manufacturer to obtain all required StandardsMark and WaterMark licences for its range of products.
